Section 1. Any person, firm or corporation or incorporated city or town engaged in the business of transporting or distributing gas for public consumption shall have the power to lay and maintain pipes, mains, conductors and other facilities used for conducting gas through, under, along, across and over all public highways, public roads, public streets and alleys, and public waters within this State; provided that within the corporate limits of an incorporated city or incorporated town such right shall be dependent upon the consent and subject to the direction of its governing body. Any such person, firm or corporation or incorporated city or town shall notify the State Highway Commission or the Commissioners Court having jurisdiction, as the case may be, when it proposes to lay any such pipes, mains, conductors

and other fixtures for conducting gas within the right-of-way of any state highway or county road outside the limits of an incorporated city or incorporated town, whereupon the Highway Commission or the Commissioners Court, if it so desires, may designate the place upon the right-of-way where the same shall be laid. The public agency having jurisdiction or control of a highway or county road, that is, the Highway Commission or the Commissioners Court, as the case may be, may require any such person, firm or corporation or incorporated city or town at its own expense to relocate its pipes, mains, conductors or other fixtures for conducting gas on a state highway or county road outside the limits of an incorporated city or incorporated town so as to permit the widening or changing of traffic lanes, by giving thirty (30) days written notice to such person, firm or corporation or incorporated city or town and specifying the facility or facilities to be moved and indicating the place on the new right-of-way where such facility or facilities may be placed. Such person, firm or corporation or incorporated city or town shall replace the grade and surface of such road or highway at its own expense.

Sec. 2. If after the effective date of this Act an unincorporated area becomes incorporated, any person, firm or corporation or incorporated city or town which, at the date of such incorporation, has pipes, mains, conductors or other facilities within such area so incorporated, may continue to exercise the rights conferred by Section 1 hereof for ten (10) years after the date of such incorporation without consent but subject to the direction of the governing body.

Sec. 3. [General repealer.]

Sec. 4. If any section, sentence, phrase, clause or any part of any section, sentence, phrase or clause of this Act shall for any reason be held invalid, such decision shall not affect the remaining portions of this Act; and it is hereby declared to be the intention of this Legislature to have passed each section, sentence, phrase, clause, or part thereof, irrespective of the fact

that any other section, sentence, phrase or clause or part thereof may be declared invalid.

In the exercise of the privileges herein conferred, such pipe lines shall compensate the county or road district, respectively, for any damage done to such public road. Such penalty shall go to the road and bridge fund of the county in which the suit is brought; and the county attorney, upon the making of an affidavit of the facts by any person, shall at once institute against the company violating any provision of this article suit in the proper court to recover such penalty or penalties, and his wilful failure or refusal to do so shall be sufficient cause for his removal from office, unless it is evident that such suit could not have been maintained. The proceedings under this article shall be conducted in the same manner as civil suits. The county attorney attending to such suits shall be entitled to a fee in each case of ten dollars, to be taxed as costs; provided, that when two or more penalties are sought to be recovered in the same suit, but one such fee shall be allowed.
